

Floor Restore

Repair, Refinish & Protect High Traffic and Industrial Floors

Durable Clear Coat & Pigmented Floor Restoration Systems

ABR has developed effective custom refinishing and restoration techniques as a result of our extensive work experience. Floor Restoration is one of the areas we excel in. Using our various floor restoration solutions we have been able to save hundreds of thousands of square feet of warehouse and other hard working floors. Whether you are looking to enhance the beauty of your floors with a hi-solids epoxy chip showroom finish, need to repair damaged, pitted and grooved surfaces with self-leveling coatings, protect against solvents and chemicals, or want to enhance cleanup and durability, we have a solution for you.

In addition to our coating and restoration systems we offer Diamond Plate flooring, shot and bead blasting, as well as a complete floor re-skinning with 3/8 MDF and epoxy (our specialty for badly damaged wooden floors).

ABR's works with many well known companies, including :

- Extra Space Storage
- TransAmerica
- J.C. Penny's
- Home Depot
- U-Store-It
- Public Storage Inc.
- 7-11 Stores
- Homestead Suites
- Porta-Fino H.O.A
- And many more...

Floor Restoration Coatings - Clear and Pigmented

Acrylic for Concrete - A periodically applied acrylic "sealer" this is an economical way to give concrete floors a "sweep-able" soft gloss finish. Normal serviceable duration, 1 to 2 years.

Epoxy for Concrete - This water based catalyzed epoxy urethane gives a lasting gloss finish. Recommended for light to medium traffic, this system comes with a 2 yr material and labor *warranty against dulling, chipping and peeling. Normal serviceable life with moderate traffic is 4 to 6 years. Not recommended for areas where standing water or moisture are an issue.

Self Leveling Epoxy for Wood or Concrete - This hi-build, 100% solids premium coating is the most durable coating we offer. Recommended for very hi-traffic areas or where standing water*, chemicals and/or solvents are an issue. Because it is self leveling, it is ideal for coating very worn, rutted floors. This coating can be poured and allowed to self level up to 30 mil thick to fix the worst floors. Comes with a 5 yr material and labor *warranty against dulling, chipping and peeling, with a serviceable life of 20 years or more depending on the traffic.

Services performed by ABR's trained & experienced technicians (not sub-contractors).

Floor coatings are available in the following colors:

Deck Red

Silver Grey

Bronze Brown

Forest Green

Machine Grey

Cobblestone

Also available in White and Clear. Custom colors available with minimum order.

*Call for details of warranty coverage and exclusions
